

An aerial photograph of a water park's lazy river system. The river is a winding, light blue channel that meanders through a lush, green landscape. Several slides of varying heights and designs are integrated into the river's path. The surrounding area is filled with palm trees and other tropical vegetation. The overall scene is bright and vibrant, suggesting a sunny day at the park.

LANDMARK
AQUATIC

EXECUTIVE SUMMARY

LANDMARK AQUATIC

Landmark Aquatic, a Limited Liability Corporation, brings together Progressive Commercial Aquatics, Westport Pools, and Spear Corporation to create a national platform offering innovative aquatic solutions from design and build to maintenance, repair, and renovation. Office locations include St. Louis, Houston, Austin, Kansas City, Denver, and Indianapolis.

Landmark Aquatic's collaborative process, specialized experience, and proven solutions set us apart. Our design-build process achieves a perfect balance of timing, cost coordination, function, maintainability, efficiency, and delivery for your project. The value our clients receive is the perfect blend of large-company capabilities and small-company personal service and responsiveness. We take a tailored approach to our complete range of services, from concept to completion and beyond.

With over 40 years of experience, Progressive Commercial Aquatics has been recognized for its innovative approach towards delivering exceptional aquatic facilities across the country. Westport Pools, a highly reputable company known for its exceptional design and construction of stunning swimming pools, holds extensive expertise in creating luxurious aquatic spaces for over 56 years. Spear Corporation has been serving the commercial swimming pool industry in Indiana, Illinois, Kentucky and Ohio since 1984, specializing in aquatic construction, service, mechanical room renovations, pool design, equipment, and municipal water treatment.

Landmark Aquatic has a proven track record of design-build success. Our projects have stood the test of time, and you can tour our work throughout the nation.

EXPERIENCE

We have successfully delivered hundreds of complex design-build projects that transformed community recreational opportunities.

QUALITY

From our in-house licensed engineering team to our highly trained crews, we deliver with high standards, attention to detail, and field-proven techniques.

STRENGTH

We have a single project bonding capacity of \$30M and a spotless reputation for exceeding customer expectations.

KNOWLEDGE

We have decades of knowledge in all aspects of aquatics: design, construction, operations, and service.

LAZY RIVER

Blue Surf Bay Waterpark

Blue Surf Bay Waterpark is a state-of-the-art indoor/outdoor facility constructed as an expansion to the Blue Springs, MO Fieldhouse. The indoor aquatic center features a 4-lane lap pool that includes a rock-climbing wall, waterfall, NinjaCross, and two diving platforms. Additionally, the indoor facility includes a leisure pool with a current channel, a separate splash pad equipped with Life Floor slip-resistant flooring, a water slide, sauna, and hot tub. Outdoors, Blue Surf Bay features a 40-foot slide tower with multiple slides. Additionally, the outdoor space includes a lazy river, a wave-ball pool with an attached activity pool, and a zero-depth entry pool with a play structure. One of the main attractions of the waterpark is a double surf simulator that allows visitors to try knee boarding or stand-up surfing.

LAZY RIVER

Club Westside

Inspired by the tropical beauty of Maui, Westside Tennis Club collaborated with Progressive Commercial Aquatics, Inc. on a custom design-build project that would offer its members a resort experience unparalleled in the Houston area. Lush tropical landscaping surrounds over 1,000 linear feet of lazy river, 200 feet of action-river, a triple slide mountain, numerous waterfalls, rock work, and grottoes resulting in a unique member experience. A first in the United States slide feature, called the High Fly, allows guests to engage in a one-of-a-kind thrill similar to how a ski jumper feels at the moment of launch. This project was the merger of inspired design, creative engineering, and precise execution.
